Dear Jim,

I appreciate your help meeting the requirements to transport LLW through and out of North Carolina.

As we discussed, Philotechnics LTD is a small private carrier who is permitted in TN both as a transfer station and waste transporter. Our id number for both of those licensed activities is TNR000030544. We have enclosed copies of those permits for your convenience.

Again, thank you for your help, and I am available at any time if you need more information.

RE: Tennessee Hazardous Waste Transfer Facility's US EPA ID Number

Dear Ms. Hansen:

This letter serves as official notice of your US EPA ID Number TNR000039544 was originally assigned for the purpose of a 10-day on-site transfer facility storage operation. The following is a brief summary of the current situation:

US EPA ID Number Assigned	TNR000030544
US EPA ID Number Assigned by Specific Physical Location	201 RENOVARE BLVD., OAK RIDGE, TN 37830
Transfer Facility Operations Only	YES (Single Purpose for US EPA ID Number)

The ID Number is assigned to the above specific physical location. Should you ever relocate within the borders of Tennessee, you will need to apply for a new US EPA ID Number.

If hazardous waste is generated greater than 100 kilograms (220 lbs) in any month of a calendar year at your business, then you must submit a completed Hazardous Waste Annual Report to the Division of Solid Waste Management and pay the appropriate generator fees by March 1st of the following year.

If you need further assistance, please contact me at (615) 532-0815.

Sincerely,

Connie Jones
